

## Summary

Creative and methodical problem solver focused on designing and developing for the web. Among my top priorities are site usability, positive user experience, happy clients, and clean, documented code. With outstanding communication skills and self-motivation I work efficiently both in teams and alone to produce high quality visual and interactive products.

## Experience

### **Kattare Internet Services** *Web & Graphic Designer (4/14 - Current)*

Redesign, code, document and maintain company website. Design print and web ads, write ad copy. Design and develop static web pages. Perform HTML, CSS & jQuery / Javascript updates to Kattare's internal site to improve usability. Provide robust customer support via email, phone, and in person. Build and take down servers and perform basic networking tasks.

### **Geoffpowell.net** *Freelance Designer - Web Focus (9/13 - Current)*

Contract out to design an array of products, from logos to fully functional websites. Continually experiment with new languages, frameworks and design ideas.

### **Student Multimedia Services (OSU)** *Production Lead & Design (1/11 - 6/13)*

Designed and produced several graphic products for department use and display, including training modules, poster templates, and informational signs. Managed office resources and trained student workers. Worked with web developers to help create online product order forms.

### **Academic Success Center (OSU)** *Art Tutor (10/10 - 6/11)*

Held multiple weekly study sessions for art lecture students. Designed games, slideshows, and group activities. Worked with students one on one as writing tutor prior to taking on art tutor role.
